

Are You Ready for Overnight Camp?

Use this checklist to be sure!

Complete your Health Forms (need at least 2 weeks before session starts)

Campers cannot attend camp unless all Health documents are complete. Please log onto your [Kennolyn account](#) in 'Forms and Documents' and submit these forms as soon as possible.

- Immunization pdf
- Health History online form
- Physician Exam pdf
- Covid vaccination card ONLY IF camper had final dose 2 weeks before session starts

Read the updated webpage

Camp will be different from previous years. All families should look at this updated site:

<https://www.kennolyncamps.com/2021-overnight-camp/>

The Parent Guide in your account will *also* help you understand the 2021 policies, activities, health and safety guidelines and more.

Packing List/Ordering Gear

The packing list is in your [Kennolyn account](#) under 'Forms and Documents' and you can order Kennolyn gear from [our online provider](#). They will mail it to you. Please note that shirts run small in general (there is only one t-shirt required this year).

2-week session Activity Preference

Fill in your camper's preferences (editable up until one week before the session starts).

One-week campers do not need to do this – all activities will be ready for them on arrival!

Sign-up for the Kennolyn App

Our App will show you daily pictures. Download from the Apple or Google Play store. Use your Kennolyn login email but create a new password that is just for the App.

Medications

Prescription medication must have written directions from a physician and be in original packaging.

Families may choose pre-packaged medications from [PillPak](#) or [CVS](#).

Please contact us camps@kennolyn.com with any questions or concerns. We want you and your camper to feel prepared and ready for a great Kennolyn experience!
