

After two years of camp with no COVID cases, and vaccinations for kids available soon, we have learned enough to feel comfortable returning to full enrollment. So those of you who missed out last year can look forward to Kennolyn once again!

Some of our plans for 2022

Makerspace Activity. Picture a massive variety of tools, resources, and materials, much of it recycled. The only creative limits will be time and imagination.

More details will be sent to overnight campers in the Spring before they select activities.

Gender-Inclusive Cabin. Some overnight campers find it hard to choose to live in a boy's cabin or a girl's cabin, and we always want Kennolyn to be a welcoming place for everyone. So having a gender-inclusive option will be consistent with that welcoming culture. Similar requests have been made in the past from twins or other close siblings or cousins. Recently, and perhaps because of the confinement of the pandemic, we have also been getting questions about close friends of different genders who would like to be together at camp. For all of these reasons, we are excited to provide this new option. *Offered in Sessions 5 and 6.*

These last two summers have reminded us how much kids love playing in the woods. So for Day Camp, we've created more **fort building** sites - **Adventure Town, Candy Land, and Wishing Tree City** to name a few.

We also are building more **overnight Outpost** sites on our new Ranch property!

Many Day Camp activities will return including horse riding, vaulting, BMX and more.

We are already over 70% full for overnight camp and are waitlisted for some of those programs.

Enroll soon if you haven't already!

Now hiring!

Program Supervisor: someone with extensive camp experience to work alongside Samantha and Andrew at our Overnight camp.

Camp Parent: help support campers and staff for a session - bring your kids with you for this work trade position.

Camp Staff: If you, or someone you know, is looking for a life-changing summer. [Apply today!](#)

After 30 years in camping and 2 summers at Kennolyn, Kelly Espinosa has retired and [Dan Johnson](#) will continue on as the Day Camp Director. We wish Kelly all the best and thank her for her valuable contributions to Kennolyn!

Huntington Lake Update.

Fortunately, our dock and boathouse were untouched by the Creek Fire, so we have everything needed for a fun, rustic camping lake experience! We are excited to figure out how we can use the lake now and in the future. Stay tuned for more information.

Thank you for the many kind notes and inquiries about this program.

Alumni Spotlight

Paula Jenkins (former camper, counselor and current camp mom) has a popular podcast called [Jump Start Your Joy](#).

This lively show looks at the inspiration, intention, and action that lead to joy in your life, the world, and other people's lives.

Lucky for us, she works with our staff during the summers on mindfulness and more, and created Kennolyn's first walking labyrinth. *She is also a Bay Area business coach and podcast producer.*

Alumni Update

Congratulations to camper and staff alumn Tracy Schantz Caffery who got married in May! She and her husband live in Denver, CO and both work as engineers/rocket scientists. *Just think what they would've created in the Makerspace activity!*
